THE PARAMOUNT ISSUE.

The Bi-Metallic League held a meeting in Washington last Friday which was attended by several Senators and Representatives in Congress and by delegates from various states. Senator Jones of Nevada, Bland of Missouri, Bran of Nebraska, Pence and Bell of Colorado, Coffeen of Wyoming, Parsons of Texas and other Congressmen made speeches, in which they declared that the money question is the supreme, overshadowing issue. Some of the speakers advocated unity of action among silver men. They should not divide their strength by supporting parties whose records show that they are opposed to free coinage. While there are silver men in the Republican and Democratic parties, they can accomplish no monetary reform through those party organizations because they are opposed to the remonetization of silver.

The League adopted an address to the people of the United States, in which is recounted the repeal of the silver purchase law and the establishment of the single gold standard. These acts have been followed by steadily increasing depression. Gold has increased in value, while industries are everywhere paralyzed, labor is unsteady and precarious, business unimproved and debtors bankrupt.

The League asserts that there is no hope of relief until the double standard is restored and silver and gold are coined on equal terms at the mints at the ratio of 16 to 1. Vets are therefore urged to make the financial question paramount to all other considerations on the election of State Legislatures, Congressmen and President.

The League recommends that a convention be held at some central point to perfect an organization to work for this end, and a committee was appointed to make arrangements for such a convention. If the convention is held and is dominated by men who are wedded to the old parties not much good can be expected from it. Free coinage can be secured only through the united action of men who believe it to be of greater importance to the country than the success of Republicanism and Democracy. These who desire to have silver restored to its historic position as a money metal must sever their connection with the Wall street twins. The declaration of Republicans and Democrats in a few mining States that they are for free coinage is simply a move in the interest of the gold trust to keep the silver men divided. Only 10 per cent of the Republicans in the present Congress voted for free coinage, while about 46 per cent of the Democrats favored it. There is therefore four and a-half times more probability of Democrats passing a free coinage bill than Republicans; but the experience of the last four years has proved to the people that neither will do it, in fact, as has been shown in the present Congress, Republicans rally around the gold-bug standard of the president and vote to sustain his views.

In the Field for Re-Election.

A correspondent writes that Judge Murphy visited Hawthorne a week ago; said he claimed his residence in Esmeralda county; that he is a candidate for re-election to the Supreme Bench, and unless his county is represented in the State Convention he could not expect the nomination. The Judge advised the organization of a branch of the Yerington-Fulton Anti-Railroad combination, and after a little "lubrication" the branch was organized and the following persons elected themselves delegates to the State Convention: G. W. White, S. Light, A. W. Curtis, D. A. McNett and Frank Neal.—Journal.

Northern Lights.

On Sunday evening there was a crimson glow in the northern sky between 8 and 9 o'clock. Some people thought it was the reflection of a fire but the same was seen from many points in the United States and pronounced a genuine Aurora Borealis. Just what this means in the Summer no one pretends to say, but the weather sharps say it means electric storms.

COAST NEWS.

Stanford expects to open in two weeks with about 1,200 students.

People who contemplate a trip to the mountains for an outing can not do better than pack up and go to the Rubicon Springs. The best way to reach the Springs is by McKinney's Lake Tahoe, thence by stage eight miles, through a wild and picturesque country. Vade Clarke the proprietress, has made a number of improvements and the place is more attractive than ever before.
